

# HECTOR THE POLAR BEAR

## INSTRUCTIONS

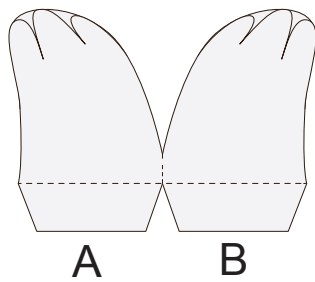

Print Template on thick paper or card.  
Use scissors to cut-out along solid colour lines.  
Fold along dashed lines.  
Glue folded tabs to insides. Glue tabs in order.

**TIP!**  
When you see Tabs with the same number means that you need to glue them at the same time.

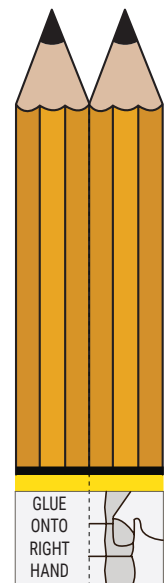

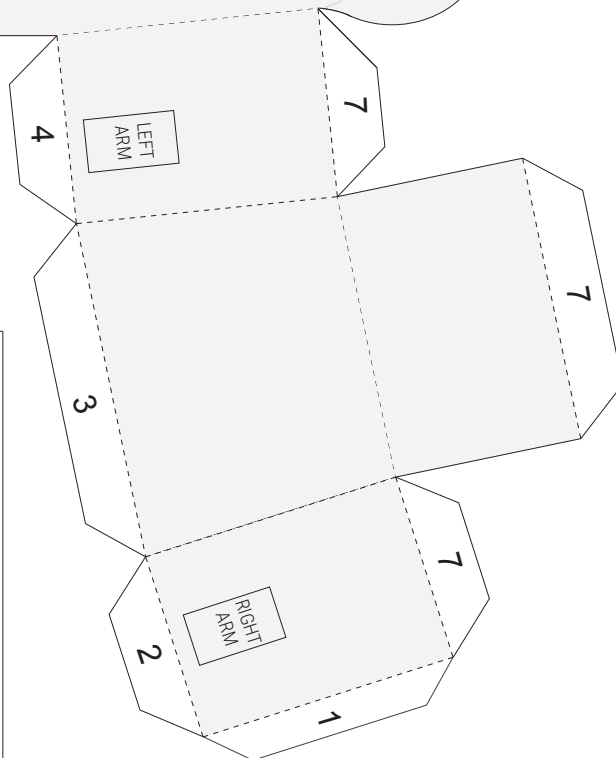

1. Cut out the right arm. Then fold here. Do the same with left arm.

2. Once glued, fold here. Do the same with left arm.

1. Cut out the Tail. Make sure Tabs "A & B" are folded outward. Then fold in the middle and glue both sides together. Don't glue the tabs against each other (Look at the reference images).
2. Glue Tail Tabs onto the back of Hector where indicated.

Cut, fold in the middle and glue it together. Then glue onto right hand.
